OUR VISION:

No waiting children.

The CALL is working toward having Christian families waiting to provide a home for every child in foster care in Arkansas.

THE CALL'S MODEL FOR MINISTRY:

The CALL's local affiliates recruit, train, and support Christian families to meet the needs of children in foster care in local areas and connect volunteers with opportunities to serve. Affiliates deliver elements of The CALL's programs at the local level. All affiliates are led by Christian staff or volunteers who are passionate about ensuring that every child in foster care has a home. Each affiliate is overseen by a local leadership team.

OUR PARTNERSHIP WITH DCFS:

The CALL and the Arkansas Division of Children and Family Services (DCFS) enjoys a unique and unprecedented partnership between a faith-based organization and a government agency. The CALL's volunteer work collaboratively with DCFS staff to move foster and adoptive families through the certification process. The CALL focuses on recruiting, training, and shepherding prospective families through the certification process. DCFS screens and approves families, and makes all decisions regarding child placements.

Harrison AR, 72601

(870) 391-2224

Fax: (866) 675-7309

Email: grandmashousecac@gmail.com

SUMMARY OF SERVICES:

Grandma's House is a non profit organization which provides a coordinated, multiagency approach to the investigation, intervention, and treatment of child sexual and physical abuse. The children's advocacy center is a place where children who are victims of abuse and their families can obtain support while dealing with their feelings and emotions about the abuse and the investigative process and their non-offending family. This service includes referral to other service providers located within the community.

The children's advocacy center (CAC) offers a child friendly environment, which is designed specifically for children. Instead of describing their abuse to multiple adults, they speak with a trained forensic interviewer in a comfortable environment and the interview is videotaped to minimize the number of times they must detail their trauma. The videotaping also increases the accuracy of the information provided to professionals investigating the case. Children who are in need of a medical exam are seen by a specialized Forensic Pediatric Sexual Assault Nurse Examiner in a child friendly environment onsite at the children's advocacy center.

The children's advocacy center provides education regarding child abuse awareness and prevention to schools, churches, businesses, and other community organizations.

SUMMARY OF SERVICES:

Founded in 1974, North Arkansas College (Northark) is a public two-year college offering transfer and technical degree programs, one-year technical certificates, certificates of proficiency, customized business and industry training, adult basic education (GED) classes and non-credit community education courses. In addition, partnerships with area universities provide the opportunity to achieve a bachelor's degree in Harrison, Arkansas. Northark offers several online degree and certificate options.

We pride ourselves in providing a successful academic experience to our students at an affordable price. In 2018, Northark was named the 17th Best Community College in the nation by WalletHub. Most recently, Northark was named the 24th Most Affordable Community College to offer online degrees by Affordable-Schools.net.

We're especially proud that 96 percent of our students would recommend Northark to a friend or family member. Northark is more than just a college, it's a community. A variety of student organizations allow students to maximize learning experiences outside of the classroom. A partnership between the Buffalo National River, Northark and the University of Central Arkansas turns the classroom into an outdoor learning lab in the Buffalo National Park in Ponca, AR. Students test water, soil and study natural resources.

Pioneer athletics draw sports fans, student athletes and visitors to Pioneer Pavilion on the South Campus each year. The college fields teams in basketball, baseball and softball.

A disc-golf/cross-country course on campus and frequent community events paired with nearby attractions such as the Buffalo National River and Branson, MO, provide opportunities to explore the beautiful Ozark Mountains. The College regularly hosts campus events and lectures free to the public.
